

The Leader's Institute®

World-Class Speaking Skills

The *World-Class Speaking Skills* coaching program is a unique way to maximize your growth as speaker and leader.

One of the most often asked questions that we get from class members is...

WOW! The program was great, but what's next?

We find that most people who go through the class see a dramatic improvement immediately. And once you start to see public speaking in a different way, it opens up all kinds of possibilities. Many people who complete the program get promoted very quickly after attending, and those who are entrepreneurs or senior managers tend to increase revenue and profit by using their presentation skills to sell more, motivate and inspire their team, and promote themselves in a more successful way.

(By the way, as these things begin to happen to you, make sure and let us know what has happened!)

One thing that is always clear is that if we're not GROWING, we're DYING. The worst thing that can happen to our growth as a speaker is to say, "Great class... Guess I'm good enough now." When that happens, we tend to start to back slide and the old habits and behaviors creep back in over time.

To keep that from happening, we created the Platinum Coaching Membership. It is a one year process that helps take the momentum from the class and accelerate your growth to becoming a world-class speaker!

Here is what the membership includes:

- One Full Day of Personal Coaching with your instructor one-on-one.
- Up to 10 Phone Coaching Sessions with your Instructor in the Next Year.
- Free Downloads of the Five MP3s from Fearless Presentations®.
- Free Fearless Presentations® Registration
- Free Platinum Bonuses: Platinum Members are an exclusive group who receive a number of bonuses at our programs including choice seating, early entrance and extra behind-the-scenes coaching.

We try to pack a lot of benefits into being a member and want to keep the investment low enough that anyone can become a member. So the fee for membership is just \$4997. To make it even easier, we allow members to set up plans to break the fee up into three monthly installments if you need us to.
