

# Creating a Team Culture™

## THE LEADER'S INSTITUTE®

Want to build trust and respect among your co-workers and managers? The 3.5-hour *Creating a Team Culture* workshop can help your group identify characteristics that lead to better teamwork. This workshop will help you

- Identify the characteristics that make up a good team
- Open up lines of communication and reduce miscommunication
- See how an individual's actions affect the group
- Deal with conflicts better
- Gain enthusiastic cooperation from other people
- Improve efficiency throughout your organization

During *Creating a Team Culture*, Your Group Learns to Inspire Each Other, Gain Cooperation, and Replace Negativity with Energy.

*Creating a Team Culture* is the most comprehensive ½-day team building program ever designed! Our expert instructors use **active participation** to make the information memorable and *to make sessions fun* because people learn by doing - not by hearing, and we learn more when we are having fun!

This program is a ½-day version of our 2-day **High Precision Teams** program, and other sessions from the longer program can also be inserted to custom tailor the workshop for your group.

Since the program is composed of modules, it can be easily customized or tailored for your group and can also be adjusted to be offered in a 2-day format, a 1-day format, a ½-day format, or individual modules can be conducted to form stand-alone breakout sessions.

### Recommended Agenda.

#### PART 1:
