

The Gumshoe Crew™

THE LEADER'S INSTITUTE®

During your 1/2-day mystery adventure with us, you'll engage both your minds and your funny bones when you attempt to uncover a clever conspiracy perpetrated by your company executives!

Some of the Outcomes that You Can Expect are...

- Build camaraderie and have fun interacting with your team on a personal level.
- Engage in effective problem solving as a team.
- Build cooperation and learn to effectively use scarce resources.
- Understand how collaboration can solve mysteries that the individual cannot solve on his or her own.

During *The Gumshoe Crew*, Teams Match Wits with Each Other while trying to Solve a Murder that happens Right Before their Eyes!

During the Gumshoe Crew, your group begins to participate in a team building program just like many others that you have attended, *however, strange things begin to happen throughout the presentation almost immediately*. Is this the most inept group of team builders that you've ever "scene" or is something going on under the surface? Just when things seem like they can't get worse for the facilitators, a murder is committed **with your group's participants as the eye witnesses**.

Now it's up to your team to investigate the crime scene, uncover clues, interrogate the suspects, and solve the mystery. Our in-house mobile CSI (Crime Scene Investigators) team helps uncover hidden clues, but your team must become master sleuths to solve this crime.

Recommended time is 3 hours, but can be tailored to fit your timeframe.

- **The Scene:** The program begins as the lead facilitator begins a classroom session focused on communication and teamwork.
- **The Murder:** Unfortunately, in every great tragedy, someone has to die. One of your executives is bumped off by someone in the room.
- **The Crime Scene:** Everyone in the room is a suspect, so your group is escorted out. Detectives do a preliminary investigation of the scene and question witnesses. When you return, likely suspects are presented. The game is a foot.
- **The Investigation:** Your team is divided into groups to solve the mystery. They can search for clues, interrogate suspects and witnesses, check alibis, and the evidence.
- **The Conclusion:** Teams realize that to come to a conclusion, a synergy is needed.
