

The Rescue Bear Workshop®

THE LEADERS INSTITUTE®

Want your next team building event to mean something to kids who have lost everything? The Rescue Bear® Workshop creates stuffed animals for kids who have been through tragedy.

- *High Energy Ice Beaker* that divides your team into groups
- *Talents of Successful People*. A hysterical contest to gain a series of clue packets full of challenges to be completed to receive materials.
- *Talents of the Team*. Groups figure out how to best finish each task by identifying the talents of their group.
- *Rescue Bear*: Each team builds their bears from scratch as they complete each challenge.
- *Donation of Bears* to Fire Dept.

This program is made up of interchangeable 1-hour modules that can customize the program for your timeframe, budget, and culture of your group.

In *The Rescue Bear Workshop*, Teams Determine the Strengths within Each Team Member to Build Bears for Kids!

The Rescue Bear Workshop™ is a high-energy and fun way to identify the strengths of your group and help them break down walls that cause miscommunication.

We cover the following concepts:

- Help your group identify the talents or characteristics of a good team and of the individuals within that team.
- Help your team identify their own talents and how to maximize their success.
- Your team must use the natural strengths and talents – together – in order to accomplish the tasks to receive the materials to build their bears.
- A philanthropic twist at the end! The Bears, Tigers, Bunnies, etc. created are donated to the local fire departments in the area.

Philanthropy: Anytime a tragedy takes place whether it is a car accident, a fire, or a medical emergency, the first responders are the local firefighters in the area. Unfortunately, kids are often affected negatively by these tragedies, and often times, these firefighters will offer a toy to these traumatized kids to make them feel a little more comfortable.

In the **Rescue Bear Workshop®**, participants build customized high-quality stuffed animals for these kids. And, of course, the final stage of completing each animal is to dress these guys in their official Firefighter Uniform. The rescue workers who receive these gifts on behalf of these kids are always very appreciative!
