

Serve our rescue workers while they serve us!

The virtual Rescue Bear ® is a virtual team building activity for up to 100 people. Each participant receives items to build a stuffed animal that will be donated to a child in foster care. We send all the materials along with a self-addressed, postage-paid shipping box. Individuals will be able to join a virtual classroom setting to learn about how their personality type impacts the way they interact with coworkers. We reinforce the idea that we need each other to be a successful team no matter where we are located. This is a great opportunity to continue strengthening your team while giving back to your community.

Discover the strengths of each team member

Strong teams based on diversity

The activities in this event are actually based on personality temperaments, but your group will never know. We have developed a revolutionary, proprietary activity that gets the team to quickly (and in a hilarious way) divide themselves into personality temperament groups.

If you are a fan of Myers-Briggs or the DISC profile, you will love this, because it is a practical way for participants to learn about their strengths and weaknesses based on their temperaments without the technical lecture. Once your team is divided by temperament, each group accomplishes challenges specifically designed to match the strengths of the participants.

Sample outline and options

- Introduction: A fast explanation of the rules and goals for the event.
- Strength Finder: Group discovers the real strengths of their team.
- Rescue Bear ®: Participants complete challenges based on strengths to earn materials to build the toys.
- Participants will box up their bear and mail it with the filled out address label. They are going to be sent and given to children that are in the foster system

Optimal time and event size

This virtual event is perfect for any group size up to 100 people. The optimal length for this event is between 1 to 1.5 hours. A longer session lends more to the reinforcement of what is covered and understanding how it can be applied to your company.

Advantages of this program

- Virtual classroom will allow your team to join from anywhere in the world
- This program has a high concentration of team development so it is a fun way to bring everyone together and grow
- Your team will have a lot of fun while learning
