

Make any meeting fun and competitive!

Have an absolute BLAST on your next team building adventure! The Ace Race® is a fun team activity where team members build a golf course out of non-perishable food items. This philanthropic team building event organizes your team into small groups of four to six people, and each group acquires “materials” to build a single hole of a custom golf course right in the banquet hall or meeting room. The “materials” that they acquire are non-perishable food items that they must use to build their hole of the course. Once the custom golf course is built, the teams compete against each other to determine the golf champion of your event.

Build your team while building your community

The Ace Race twist

There is a twist however... Most teams will create unbelievably difficult holes that are practically impossible to conquer, so the Ace Race doesn't just have them compete to conquer the course. Each team plays each hole until they get an “Ace” (hole-in-one). This difficulty moves the challenge from being a competition to a team building exercise pretty quickly. And adds a LOT of laughter in the process.

Sample workshop outline

- Introduction: A fast explanation of the rules and goals for the event.
- Earn the Materials: Each team solves puzzles and challenges to earn their course materials. The faster they solve the challenges, the more time they have to build their hole and practice.
- Build the Course: Each team builds a single hole within the course.
- The Ace Race®: Teams compete
- To race through the course getting holes-in-one, and the energy erupts! A champion is crowned.
- Donation of the Food to a Food Bank: Each group re-boxes up their food items, and we donate them to a charity.

The Ace Race offers fantastic team building, community outreach, and great PR.

Optimal time and event size

This event works best for groups of 50 people to 20,000 people. The optimal length of time for this event is from 1.5 to 2 Hours. We suggest approx. 175 square feet of space for each hole being built.

Advantages of this program

- Fast, high energy event that your group will remember for years!
- Works well in an area that has experienced a natural disaster recently (think Katrina or Sandy) because your meeting inserts dollars into the community.
- Lets your team be competitive and have fun, but also feel good about helping others.
- Great public relations advantages
- Practically an unlimited scope insize—the larger the group, the more fun the event.
