

**PEOPLE LEARN FASTER AND THE CONTENT STICKS LONGER WHEN THEY ARE HAVING FUN**

Looking for a fun and easy way to build teamwork and develop the strengths of your staff? We can create a custom curriculum for your team members in an economical and practical way.

Creating a Team Culture is **a series of one-hour to two-hour modules** on various topics in learning and development. We can organize these modules into a series of **one-hour breakout sessions, 1/2 day workshops, or one-day or two-day seminars** for you.

### Suggestions and Options.

- **Consult with Your Instructor:** Each classroom session is tailored to the group. Your instructor will work with you to create an agenda.
- **Team Assessment:** We also offer an optional team assessment that will help you determine the specific needs of your group.
- **Combo Programs:** You can add classroom modules to other team activities to create half-day or day-long agendas. **(Example: Add a Personality Temperament module to Rescue Bear® to reinforce team development.)**

*"Great training with good tools for all levels of our team."*

- UVH

*"It was a Great Session! Lots of learning and super interactive."*

- Amazon

### Sample Modules/Agendas
